1. Easy marking – use the comment box to add comments:
Point comment – allow you to add a comment at a specific point in the document. It makes a mark on the document and the comment will display on the side.
Area comment – will allow you to draw a box and then your comment will be linked to that box.
Text comment – allows you to write a comment on the document itself. However you have to also click on the Text option and then you can type.

2. This is where you capture the mark
3. Click on the grid to open the rubric and add comments using the rubric (if applicable).
4. This will open a box where you can make notes for the Grade history report on this student's submission – these comments will not be reflected for the student.
5. This arrow will allow you do download the assignment to your computer.
6. Where you will add comments that will be displayed for the students.
7. Adding an attachment. You can add more than one attachment as well.
