

How do I make a rubric visible for students?

The need

I don't want to associate this rubric with a particular assessment tool. Students will do an oral presentation in class. But I would like them to see how they will be evaluated.

The answer

The only way that you can accomplish this, is to create the Rubric and then create a column in the Grade Center and add the rubric to the column. The students will then be able to view the rubric from the My Grades tool. It will look like this:

The student will click on the **View Rubric** button to display the rubric:
