

Add modules to a Module page

Fact sheet

Possibilities for a Module Page

1. Display a banner to your course (see Working with Banners step sheet)
2. Add course modules (built in functionalities available in clickUP)

Modules are items that include content, links or tools that can be added to personalise a page. Users can browse for a module by category or search module titles and descriptions by keyword. You can choose between:

Tools	What is it?	Who will see it?
Alerts	Don't fall behind. Display notifications of past-due and early warnings for your enrolled courses. Receive information regarding: Assignments, Surveys, Tests Early Warning System	Instructors For example, if a student misses a deadline for an assignment, the notification will display this in the Alerts module
Calculator	Perform calculations	Instructor & students
Content Collection: Course Content	Display links to the content collection folders for the courses in which you are enrolled. Note: You must have permission to view a folder.	Instructor and students. <i>NB!! You must not add this module to your Module page if you do not want students to have access to your content collection.</i>
